Information regarding obtaining Medical Records (This information was extracted from the Blanchfield Army Community Hospital Webpage)

The mission of the MRB is to provide accurate, timely, consistent medical information for use in the provision of quality health care while protecting the patient's need for privacy and confidentiality; to support administrative functions needed to maintain the hospital's ability to be fiscally sound; to be accountable for our actions; and to meet the needs of the patients.

Front Desk, BACH Outpatient Records 270-798-8290
Release of Information (Record Requests) 270-798-8541/956-0342

The Correspondence Section handles all requests for medical information. Our section is divided in two sections; Outpatient Records for personal requests and Legal Correspondence for sensitive and third party requests. To protect your privacy and Protected Health Information (PHI), we must receive your personal request in person by filling out a DD Form 2870(Authorization for Disclosure of Medical or Dental information) and having a valid DoD ID card.

PHI will not be released to sponsors/spouses or any third party without the proper consent from another individual through a valid medical power of attorney that specifically includes the authorization to disclosure PHI and/ or patient signature on the DD Form 2870 designating the family member and/or individual.

- Telephone requests for PHI cannot be honored.
- Faxed requests will be honored if the requestor sends a copy of the patient's ID card to validate the patient. All BACH records fax numbers are established on a secure network.

Note: Medical records on patients are only maintained at a military treatment facility for the following years after the last date of treatment/hospitalization and thereafter retired:

Outpatient records -three (3) years

Inpatient treatment records- two (2) years
